Arterial Capital Management are pleased to announce that Dumitru Malic, highly respected across the CEE region, has joined the Arterial origination team with immediate effect from Citigroup. Dumitru will be based in Budapest. Dumitru's full biography may be viewed at <http://www.artcapman.com/our-people/dumitru-malic/> or follow our press releases and live news on twitter @artcapman.

Dumitru Malic will provide Arterial with Central and Eastern European (CEE) coverage for family offices, private banks and wealth managers with a particular emphasis on Russia, CIS and the Baltic States.

Dumitru is a native Russian and Romanian speaker, fluent in French and English and holds a First Class Honours degree in Finance and Accounting.

During his career, Dumitru has been involved in a number of activities surrounding public policy, previously worked at the Moldovan Diaspora Relations Bureau and has contributed to a number of projects with high social impact.

About Arterial Capital Management:

Arterial Capital Management is a private equity firm focused exclusively on the global life science sector. We specialise in providing equity funding to biotech, medtech and pharmaceutical companies. We will typically invest our own money into each project on the same terms as other investors and we are motivated primarily by a traditional 20% carried interest on the successful realisation of a holding. Deal size is typically £5-25m.

Dumitru Malic said:

"The opportunity to deliver consistently strong alpha at a time when available deal flow for family offices and wealth managers is at a low, is incredibly exciting. The global reputation of the entire Arterial team, who have achieved so much during their careers, makes this a proud moment for me. I am looking forward to expanding Arterial's reputation in the region, both with existing and new clients alike."

Markus Weissbach, Head of Clinical Trials for Arterial said:

"Dumitru is a great addition to Arterial, and having been involved with the CEE region for the past 20 years, I am very much looking forward to working with him. Dumitru's reputation is outstanding, making him a fantastic addition to an already internationally recognised Arterial team, and ensuring our success at converting scientific excellence into commercial reality."

David Evans, Director of Arterial said:

"Baltic and Russian relationships are of increasing importance for Arterial. The addition of Dumitru to our team sends a clear message to the CEE family office and wealth management market that we are committed to the region."
